Since 2012 the Rip Curl School of Surf has worked closely with the Soul Surf Project Bali a non-profit organization established in 2007 by Rodney Westerlaken. The Soul Surf Project and Rip Curl School of Surf have to date given over 1,000 orphans, street kids and physical disability kids the opportunity to ride a wave, learn to surfing, work experience in the surf industry and even adopted several kids into our Rip Curl School of Surf family. If you want to support the Soul Surf Project please talk to our front office staff about the Soul Surf Project course schedules or you can simply make a donation to the Soul Surf Project.

Harness the power of the wind as you race across the warm water of Sanur in the exciting new sport of kite surfing with several levels of tuition from certified instructors, with the very latest in AIRUSH kiting equipment. IKO standard tuition is essential in this exciting adventure sport and we supply full IKO certification on completion of level 3.

**LEVEL 1**

Designed to familiarize first-timers with kite surfing and provide an understanding of equipment, wind and ocean conditions, followed by a simple multi-question test to check your safety skills. Course includes instruction in equipment preparation, trainer kite flying on the beach and learning how to launch the bow kite.

**LEVEL 2**

Time to put the training to work and get wet with the kite. Taking to the water you’ll learn how to launch the kite, how to position yourself and the board, control the kite in the power zone and use the kite to propel you across the water. You’ll also be briefed on self rescue and the kite release procedures required to get you back to the beach.
LEVEL 3

The most advanced of all of the IKO programs and the final step of full IKO certification. Once you’ve mastered Levels 1 and 2, learn how to generate speed and move up and down wind. You’ll also learn how to change direction and grab some air with basic jumps and aerial manoeuvres.

BOARD RIDING SKILLS

Concentrate on learning all necessary Board Riding skills utilizing our wakeboard boat, Kite board, Kite -harness and Kite bar’n’line system. Learn up wind board recovery, water starts - coming up out of the water both directions using the harness, correct body positioning & edging the board for upwind riding plus turning.

PRIVATE KITE TUITION & RENTALS

If you are looking for fast track intensive learning, our instructor will take you through the IKO certification one-on-one, work on your manoeuvres, jumps, race board and wave board riding or simple familiarizations with latest equipment.

Taking a new look at an old favorite, windsurfing lessons at the Rip Curl School of Surf emphasize balance and technique over strength which allows students to learn fast and easily. Your instructor will be following in a sea kayak or shadowing you on a windsurf board to maximize your results from the lesson.

LEVEL 1

Beginning with a beach simulation, we teach you all you need to know about equipment prep and making the launch before moving into the water and learning techniques for starting, sail recovery, accelerating, turning the board and moving up and down wind.

LEVEL 2

Slip into a harness and take your windsurfing to the next level. We teach the speed skills essential for learners to move up into jibes and deepwater starts. We give comprehensive tuition on how to read wind patterns, manage your sail, use the harness and essential foot placement for planing at speed.
LEVEL 3

Our advanced level and the final step of the learning process. Learn how to make S turns, rail turns and downwind speed turns used in racing. Once you master the basics, we move up to a pro board and use the foot straps to demonstrate speed work and direction changes under power with the harness.

PRIVATE & RENTALS

Learn at your own pace or work on your skills in a one to one session, private lessons are available at all levels with your own instructor and class times to fit your schedule. The Rip Curl School of Surf is actively involved in the Indonesian Windsurfing Development and sponsors many top local riders.

Try your hand at Stand Up Paddle board, great for fitness, also an easy and exciting way to surf waves with no surfing experience required. After just one lesson you'll be piloting the board along the coastline or trying your hand on rolling waves - on your own, with a friend or with one of our guides.

LEVEL 1

Learn about your equipment and the three basic paddling techniques you'll master the essentials and practice paddling across flat water, making turns and learning how to stay upright. The perfect introduction to touring SUP with a few useful tips to stop you from falling off.

LEVEL 2

Move on up and find out how to ride small waves, switch feet, keep your balance as you paddle onto waves and make smooth exits. You'll also learn how to pass over waves while controlling the board with your paddle and by moving your weight.
Advanced skills for big wave SUP'ing. Use the power of the paddle and learn how to bottom turn of your fins, move into and float off wave sections and power over breaking waves with ease.

Level 1-3

Recommended for surfers looking to try something new or for those wanting to learn all the skills in one go, a private lesson will take you straight into the power moves and paddling into sets, changing direction and cutting back with speed.

Located at Rip Curl School of Surf in Sanur, Blue Oasis Dive is a PADI dive school with exceptionally high standards. We aim to keep groups small, with 2 divers to 1 instructor (maximum of 4 divers to 1 instructor). We guarantee top class equipment and first rate instruction with a focus on diver safety, environmental awareness and the enjoyment of all the incredible underwater beauty that Bali has to offer. We are right on the beach so you can truly feel you are in your dream tropical paradise as you prepare for your diving experience. Our swimming pool sessions are conducted next door in the luxury pool of Prama Sanur Hotel.

At Blue Oasis Dive we run all levels of PADI programmes from Discover Scuba Diver up to Divemaster. We also offer the unique PADI Bali Sunfish and Marine Park Diver specialty. This new PADI distinctive specialty not only gives incredible insight into our local marine park and the elusive Ocean Sunfish that visits it every year, but each course also contributes directly to the continued scientific research of the fascinating and mysterious Ocean Sunfish. Our main day trip locations include Sanur, Padang Bai, Candidasa, Tulamben and the islands of Nusa Penida.

Sanur channel and dive sites along Sanur reef has an abundance of life and, since it is our house reef, we can easily go for 1 or 2 dives depending on how energetic you are feeling that day! You will be provided with our Balinese local boat, called jukung to the dive site.

**PADANG BAI**

Padang Bai has many different dive sites, beautiful hard coral formations, soft coral and sandy slopes, coral walls, mini wrecks and artificial reef structures or an amazing muck dive. It takes approximately 1 hour by car from Sanur. Continue with jukung from the harbour that you can begin to enjoy the stunning views both above and below the water.

**CANDIDASA**

A little further north from Padang Bai, Candidasa has some incredible jukung boat dives. As these dive sites are more prone to strong currents this dive area is only available to divers with the sufficient experience. These pristine reefs are full of majestic marine life and have something very special about them! It takes approximately 1.5 hour by car from Sanur.

**TULAMBEN**

Tulamben is home to the world famous USS Liberty wreck. Underwater now for over 50 years, its 120m long structure has been reclaimed by Mother Nature and is encrusted with beautiful corals and provides shelter for an abundance of marine life. It takes about 2-3 hours by car in beautiful rice field views along the way. Once there it is a shore entry from the volcanic pebble beach and is an excellent site for beginners and advanced divers.

**NUSA PENIDA**

The islands of Nusa Penida have some of the most stunning, healthy & exciting dive sites in Bali. It boasts an incredibly high level of marine biodiversity and a place to spot some of Bali’s charismatic marine species, including sharks, turtles, manta rays and the seasonal aggregation of the Ocean Sunfish. We recommend these trips for certified divers with a good level of experience.
INTRO DIVE

This programme teaches the fundamentals of dive theory and a few of the most basic but important skills. After a session in the swimming pool you will have the opportunity to dive in the ocean to see the spectacular wonders of the underwater natural world with your own eyes.
1 swimming pool session and 1 open water dive with your instructor, all necessary equipment and dive insurance.

OPEN WATER (4 DAYS)

The first complete entry level certification is the PADI Open Water Diver. This will be the start of your great life-long diving adventure! This course consists of three main phases: theory (including 5 knowledge development sections, quizzes and a final exam), confined water dives (in a swimming pool) and 4 open water dives to review your skills and explore your new underwater world!
Dedicated PADI dive instructor, all related PADI materials and certification, lunch and soft drinks for each day, all necessary equipment and dive insurance.

ADVANCED OPEN WATER (2 DAYS)

If you already have your Open Water certification and you want to further improve your diving knowledge and experience, the PADI Advanced Open Water course is the best choice. This course will give you an opportunity to experience 5 different adventure dives including Adventure Deep Dive (maximum 30m) and Adventure Navigation Dive. This course includes knowledge reviews for each adventure dive section and a total of 5 dives in the open water.
Dedicated PADI dive instructor, all related PADI materials and certification, lunch and soft drinks for each day, tanks, weights and dive insurance.
BALI SUNFISH & MARINE PARK (2 DAYS)

This specialty consists of a half day of theory looking at the different species of sunfish and more specifically at the sunfish that we find here in Bali during the infamous ‘sunfish season’. All the information in this course is based on scientific research and is part of ongoing research into the sunfish in the Bali area through the Sunfish Research project. It also gives information about our local marine park, diver codes of conduct and further insights into the links between all these topics and how it fits into the wider context of marine tourism and environmental conservation efforts.

The second day will be 2 dives within the marine park focusing on the diver code of conduct and the chance to witness the awe inspiring sunfish itself, in all its massive glory! Dedicated dive boat from Sanur to the islands, all related materials and PADI certification, 2 dives with your instructor, lunch and soft drinks, tanks, weights and dive insurance.
